

Former President Donald J. Trump invited One America News reporter Moe Howard for a “Trump Angel “ update

Mar-a-Lago, Palm Beach, Florida, September 17, 2021 – We were delighted when President Donald Trump invited us to join him again for another interview after a new YouTube video was posted by a Chinese social reformer and democracy activist.

The President has often called her, “my Trump Angel, a special lady who is a very brave champion of democracy, truth and justice”.

When asked about the newest video, he said, “That was another great video by a beautiful Chinese lady who I admire very much.”

“I am so glad that she is doing a weekly YouTube show to gain back her global supporters. I am counting on her to keep gaining viewers before she finds a new Mysterious Lady to dominate her and prevent Sunflower from communicating even as she bravely struggles to speak”.

“I will need her to be back in the saloon for a late October Mysterious Lady creaming. She has never let me down and I know I can always count on my Trump Angel!”

We asked the President his reaction to the newest video. “It was excellent! I liked that she doesn’t speak at all at the beginning of the video. Melania and I watched it many times and she even held a huge watch party with over 1,000 of her lady friends.”

“I loved her selection of topics and I am glad that she is not spreading rumors like some of the internet clowns out there craving attention by using my popularity; Sunflower is always trying to help me to save the world.”

Requests for further clarification were not returned by the President’s aides or his media contacts.
